Prompt Engineering

Module 1: Foundations of Prompt Engineering

AI basics: Understanding how large language models work.

Prompt structure: Crafting clear, concise instructions.

Managerial use cases: Decision support, reporting, communication.

Hands-on: Write prompts for meeting summaries and reports.

Module 2: Precision & Context

Context framing: Adding background for better AI responses.

Role assignment: Directing AI to act as analyst, trainer, or strategist.

Iterative refinement: Improving outputs step by step.

Hands-on: Refine prompts for project planning.

Module 3: Advanced Techniques

Chain of thought: Guiding AI reasoning for complex tasks.

Multi-step prompts: Breaking tasks into structured steps.

Scenario prompts: Simulating business cases and roleplays.

Hands-on: Create prompts for risk analysis and forecasting.

Module 4: Managerial Applications

Decision support: Using AI for strategy and planning.

Team communication: Drafting memos, emails, and presentations.

Performance insights: Generating dashboards and summaries.

Hands-on: Build prompts for executive reporting.

Module 5: Capstone & Case Studies

Business case study: Apply prompt engineering to real managerial challenges.

Team projects: Group prompt design and testing.

Wrap-up: Present AI-driven solutions for leadership scenarios.
